Paris, Washington DC, Zanzibar, 11.06.2021, 23:16 Time

USPA NEWS - On Monday 7 June 2021, the city of Boga's General Referral Hospital (GRH), which is supported by Médecins Sans Frontières/Doctors Without Borders (MSF), has been the target of a deliberate attack in the context of ongoing clashes in the city. The overall toll of the clashes so far is estimated at around twelve deaths, including ten civilians, and the hospital has been completely destroyed. Several buildings were burnt down, including the intensive care unit, and the pharmacy and medical reserves were looted. Nine wounded have been admitted to the Gety general hospital, which is also supported by MSF.

This incredibly violent attack prevents the Boga hospital from running and caring for very vulnerable people, even though it was the last remaining healthcare facility in the health zone for the more than 80,000 people who relied on it.
